

Directions to the Rotary Ubud Waste Recycling Facility in Temesi

From Ubud or Denpasar, drive through Gianyar in direction Klungkung. About 1 km after the Gianyar football field, which is in the middle of the town on your right, you arrive at a traffic light. Continue 1 km further in direction Klungkung and you arrive at a big intersection with another traffic light, where a road turns off left to Bangli. From there, you continue another 250 meters still in direction Klungkung and a hard to spot, but medium size paved road turns off to the right to Temesi. Take this right turn and follow the road through the village of Temesi. After about 1.5 km, already well beyond Temesi, you arrive at the waste facility.

When lost or in doubt, ask for the TPA Temesi, about 2 km east of Gianyar or phone the facility at: 743 80 83.
